Check that your file is a "mswincompressed.dll" and not a "mswincompressed.zip".

Q: Render Numeric values to a label using Ember I have a nested model with a number field. I would like to display the numeric value in a textfield. My view: Amount: {{view Ember.TextField valueBinding="name"}} The model and route has: name: "amount" type: "number" When I press the enter it just created a space. A: Try this Ember Binding - TextField will allow only characters - {{view Ember.TextField valueBinding="name" type="number"}} To disallow spaces there are some options as well, but this is the simplest version. The St. Lawrence Seaway was established in 1959 to help move cargo from the Great Lakes to the eastern seaboard. Although the link between the Great Lakes and the eastern seaboard is now largely obsolete, the seaway is still used to ship cargo, and to move grain from Great Lakes ports to nearby elevators or farm storage bins. Much of this cargo is moved by barges towed from the seaway. The St. Lawrence Seaway Authority, responsible for the management and construction of the seaway, was founded in
