Rhymesaurus [32i64bit]

Rhymesaurus is a database and rhyme dictionary of over 115,000 words with definitions, sounds similar, synonyms and rhyme sounds. The app also contains over 120,000 word rhymes and many more words in different dictionaries. All words can be sorted by rhyme type, family, sound similar, word length, word ending or word frequency, as well as meanings, synonyms, numeric and sentence counts. Users can also search for a rhyme or exact word in the dictionary. There is an extensive rhyme calculator which allows users to calculate rhyme sounds, family, rhyming syllables and word families. The database is in sync with the online website that provides access to the application and its features. The app also syncs with popular rhyming word search engine and rhythm creation software. Basic features: •In-app dictionary containing 115,000 words •21 different rhyme types in over 120,000 word rhyming dictionary •120,000 word rhyming dictionary with 21 different rhyme types •Download multiple dictionaries (dictionary option) •Search and sort by rhyme type, family, sound similar, word length, word ending or word frequency, as well as meanings, synonyms, numeric and sentence counts •Rhythm calculator which allows users to calculate rhyme sounds, family, rhyming syllables and word families •Rhymesaurus Desktop contains the database •Rhymesaurus includes a separate section that allows users to write down text and create rhymes Advanced features: •Word frequency search •Word endings search •Sums of syllables to find matching words •Begin and end letter search •Search by position in word •Search by cases, stress, syllables and more •Download entire database of 115,000 words from the website (not in-app) •Synchronize with online website which provides access to the application and its features, and the Rhymesaurus database •Rhymesaurus Desktop is also an open database which allows users to add their own words to the database •Rhymesaurus Keyboard enables users to have an in-keyboard rhyming dictionary that provides auto-completion •Rhymesaurus includes an extensive rhyme calculator which allows users to calculate rhyme sounds, family, rhyming syllables and word families •Calculate consonance •Rhymesaurus includes a separate section that allows users to write down text and create rhymes •Rhymesaurus

What's New in the?

RhymeSaurus is the world's most advanced rhyming dictionary and thesaurus. It is designed for wordsmiths, poets, songwriters, advertising copywriters, fiction writers, bloggers, novelists, and for people who love words and love to find the right rhyme for each word. Not only does it let you find the right rhyme for any word, it helps you use the right rhythm and sound and alliteration whenever you write! It's also good for people who try to learn or to recall words. However, in our dictionary, you will find more than just words that rhyme. In fact, you will find words that sound and look like the words you search for! It lets you do non-standard rhymes, like: Final syllable rhymes Words that rhyme with itself Rhymes that include homophones or double sounds Reverse rhymes Rhyming words that don't end with the same letter ... and more As well as adding the sounds of these words, it also includes definitions and synonyms to make sure that you have all the words that rhyme with that word. For example, you might be looking for a single word rhyme or you might be looking for a word that rhymes with "the". RhymeSaurus lets you do both! It works in almost any language, as long as the word and the sounds you are looking for are in the dictionary! Most of RhymeSaurus's keywords are listed in the Google Translate app, so you'll never have to worry that the dictionary won't have your word in it or you won't be able to find it when searching for rhymes! You can find words like "love" and "home" in our thesaurus! You can even find words that rhyme with "dough" or with the Spanish word "ratas". There's a rhyming picture that shows you what you're looking for (with a dictionary lookup!) For songwriters, advertisers, and copywriters, RhymeSaurus is an essential tool. You can find the rhyme you're looking for in a matter of seconds. Try it out! You'll see how easy it is! Requirements: This software is free to use and you don
